Regional Resource Guide for Marine Corps EFMP Families

For families stationed outside Okinawa and Iwakuni, this guide connects local medical care, schools, recreation and arrival support across mainland Japan, the Republic of Korea, Guam, Singapore and selected embassy assignments. Start with your Marine Corps EFMP caseworker and gaining command sponsor, then contact the destination resources listed here.

Research review: 27 October 2026. Links lead to official installation, health, education and diplomatic resources unless a school or local government is identified. Published contacts were checked online, not by telephone. Office hours, services, eligibility and provider capacity must be confirmed for your family before travel.

Planning care and education before a move

Start with the people who can confirm services

Ask your assigned USMC EFMP caseworker for a warm handoff to a local EFMP family support provider. Your gaining sponsor can help with arrival logistics and access; the receiving medical team confirms treatment capability, and the school or NDSP team confirms educational arrangements. A welcoming office cannot approve all of these matters for another agency.

Medical care

Before travel, ask the receiving medical team and International SOS whether your specific specialists, therapies, medications, equipment and behavioral health services can be provided. Confirm referral requirements, expected waits, interpretation, accessible transportation and the emergency plan. Ask about pregnancy, pediatric subspecialties, complex adult conditions and ongoing treatment explicitly rather than assuming a nearby clinic offers them.

Education and child development

Send the current IEP or 504 plan, evaluations, therapy reports and assistive technology needs through the receiving office's approved process. Ask the school to review the actual services needed. An international school's learning support program may differ substantially from the services in a U.S. public school. For infants and toddlers, ask the medical team about early intervention or EDIS eligibility and the local referral pathway.

School funding and local access

A DoDEA school, a private international school and an NDSP funded placement are different arrangements. Ask the SLO and NDSP office which applies to your orders and residence. Obtain written funding approval before making financial commitments. EFMP enrollment does not itself authorize school tuition, base access, childcare, respite or civilian medical reimbursement.

Prepare a portable continuity file

Carry orders and dependent travel authorization, prescriptions and a medication summary, recent medical records, school plans and evaluations, immunization records, equipment specifications and contact details. Ask providers how to bridge treatment during the move and whether medications may legally be imported. Keep sensitive records out of ordinary group email.

Military OneSource EFMP and special needs support https://www.militaryonesource.mil/special-needs/efmp/

NDSP newcomer information https://www.dodea.edu/non-dod-schools/newcomer

International SOS country contact and assistance finder https://www.internationalsos.com/assistance-centres

Metropolitan Tokyo and the Kanto area

Tokyo based families may use several geographically separated military communities. Choose services around your actual home, duty location, appointment travel time and school transportation boundaries. Proximity to an installation does not determine enrollment or funded school eligibility.

Family support and recreation

Yokota M and FRC and Camp Zama ACS are useful entry points for resource referrals. Yokota EFMP Family Support: DSN 315-225-8725, 374fssfsfr@us.af.mil, Building 535. Camp Zama ACS: +81-46-407-4357, Building 402; ask for EFMP. Their FSS and MWR websites list recreation, libraries, outdoor activities and youth programs. Ask about accessibility, participation rules and travel before registering.

Yokota FSS recreation and family programs https://yokota374fss.com/mfrc/

Camp Zama MWR and community services https://zama.armymwr.com/

Medical care

Use your assigned primary care team and International SOS to coordinate Tokyo area civilian care. The Tokyo Metropolitan Government's English medical information page helps identify language support and understand local care access; it does not establish TRICARE authorization. Military medical starting points include Yokota's 374th Medical Group, Camp Zama's BG Crawford F Sams clinic and Naval Hospital Yokosuka.

Tokyo medical information for foreign residents
https://www.hokeniryo.metro.tokyo.lg.jp/iryo/iryo_hoken/medical_info_eng

Camp Zama clinic https://bg-crawford.tricare.mil/Health-Services/Primary-Care

Schools and arrival information

Ask the appropriate military school liaison about DoDEA eligibility and transportation. For a non DoDEA placement, contact NDSP before committing to tuition. State's archived American School in Japan and Nishimachi special needs profiles can frame questions, but their 2024 publication dates make them background information rather than current capacity guarantees. Request a current assessment from the school and Office of Overseas Schools.

American School in Japan 2024 special needs profile archived https://2021-2025.state.gov/the-american-school-in-japan-special-needs-profile/

Nishimachi 2024 special needs profile archived https://2021-2025.state.gov/nishimachi-international-school-special-needs-profile/

US Embassy Japan public services and local information https://jp.usembassy.gov/services/

Yokota Air Base

EFMP and family support

Military and Family Readiness Center, Building 535: DSN 315-225-8725; 374fssfsfr@us.af.mil. Ask for EFMP Family Support, newcomer orientation and a local resource handoff. The office also provides relocation and family readiness support.

M and FRC and EFMP Family Support https://yokota.tricare.mil/Health-Services/Case-Management/Exceptional-Family-Member-Program/

Medical

The 374th Medical Group is the installation medical starting point. Use its website to locate appointments, referral management, patient resources and medical EFMP. Ask which ongoing services are available on base, which require civilian referrals and whether care can be sustained after arrival. Family support and medical screening are separate functions.

Yokota medical services and patient resources https://yokota.tricare.mil/Health-Services/

Yokota medical EFMP https://www.military.com/base-guide/yokota-air-base/contact/efmp---enrollment/15483

Schools and child and youth programs

School Liaison Program email: 374FSS.FSY.SLP@us.af.mil. The liaison helps with transitions, school options and youth sponsorship. Request confirmation of the appropriate DoDEA school, registration documents, transport boundaries and special education coordination. Use the FSS child and youth pages for childcare and school age care; ask about inclusion assessment and waitlists.

Yokota School Liaison Program

MWR and welcome information

Yokota FSS lists libraries, community centers, fitness, outdoor recreation, information and tickets, youth activities and Tama Hills recreation. Discuss access and accommodation needs directly with the activity. The official sponsorship booklet provides an arrival planning framework; confirm current transport, lodging and orientation arrangements with your sponsor.

Yokota FSS programs https://yokota374fss.com/schoolliaisonprogram/

Official Yokota sponsorship guide August 2025
https://www.yokota.af.mil/Portals/44/Sponsorship%20Booklet-Updated%206%20Aug%202025.pdf

Misawa Air Base

EFMP and family support

Military and Family Readiness Center, Torii Building 656: DSN 315-226-4735; +81-176-77-4735; 35fss.fsh.exceptionalfamily@us.af.mil. Shared center backup: 35FSS.FSC@us.af.mil. The current FSS page lists these channels; the supplied draft's Kadena mailbox should not be used for Misawa.

Misawa M and FRC and EFMP contacts https://misawa.tricare.mil/Patient-Resources/Exceptional-Family-Member-Program-EFMP

Medical

Use the 35th Medical Group for local clinical services and medical screening. Medical EFMP is at Building 99: DSN 315-226-6222 or 6371; +81-176-77-6222 or 6371; usaf.misawa.35-mdg.mbx.efmpm@health.mil. Confirm specialty referral travel and medication continuity before accepting that local care will meet your needs.

Misawa medical EFMP and local services https://35fss.com/medical-clearance-efmp/

Schools

The School Liaison supports PreK through grade 12 transitions and education questions. Use the official page to obtain the current liaison contact and confirm school assignments, special education coordination and transportation. Ask how IEP records should be transferred and how services will begin after arrival.

Misawa School Liaison https://www.misawa.af.mil/Newcomers/School-Liaison/

MWR and welcome information

35 FSS lists libraries, indoor recreation, fitness, youth programs, outdoor recreation and trips. Contact activities about sensory, mobility, communication or supervision needs. The installation's Newcomers page is the preferred arrival starting point. A separate FSS welcome page surfaced unrelated Kunsan text during this review, so it was not used as Misawa arrival guidance.

Misawa recreation and family programs https://35fss.com/outdoor-recreation-center/

Official Misawa Newcomers page https://www.misawa.af.mil/Newcomers/

Planning question: if a needed service is not available locally, who authorizes and arranges the referral, how often will travel be needed and what costs are covered? Obtain answers from the medical team and International SOS.

Naval Air Facility Atsugi

EFMP and family support

Fleet and Family Support Center, Headquarters Building 949, first floor: DSN 315-264-3372 or 3628; +81-467-63-3372; M-AT-NAFA-FFSC-DutyOffice@us.navy.mil. Ask for the collateral duty EFMP case liaison. FFSC is also the arrival orientation and intercultural support entry point.

Atsugi Fleet and Family Support Center navymwratsugi.com/fleet-family-support-center

Medical

Branch Health Clinic Atsugi is part of Naval Hospital Yokosuka. The clinic notes that specialists are located at Yokosuka, approximately one to two hours away. Ask about the actual referral pathway, transportation, appointment availability and travel with equipment or children before choosing housing or scheduling recurring care.

Branch Health Clinic Atsugi https://yokosuka.tricare.mil/Clinics/Branch-Health-Clinic-Atsugi

Schools

School Liaison: local commercial 0467-63-4732; international +81-467-63-4732; M-AT-MWR-SLO@fe.navy.mil. The published SLO page contains inconsistent international and DSN variants; the local commercial line and email are the preferred starting channels pending office confirmation.

The school page identifies Shirley Lanham Elementary on Atsugi and Zama Middle High School at Camp Zama. Verify current grade configuration, eligibility, bus route and special education arrangements with the

liaison. The commute between communities matters when evaluating appointments and after school participation.

Atsugi School Liaison and school information https://www.navymwratsugi.com/programs/d390a708-b74e-4615-b85f-90fb7311e183

MWR and welcome information

Atsugi MWR lists recreation, library, sports and child and youth programs. Ask staff about accommodation requests and inclusion procedures. The installation check in page explains arrival orientation and FFSC access; older welcome packets should be checked against current instructions.

Atsugi MWR https://www.navymwratsugi.com/

Atsugi current installation check in information https://installations.militaryonesource.mil/military-installation/naval-air-facility-atsugi/base-essentials/check-in-procedures

Commander Fleet Activities Yokosuka

EFMP and family support

FFSC publishes an EFMP mobile: 080-5068-2977 in Japan, +81-80-5068-2977 internationally. FFSC main office: +81-46-816-3372; ffscinfo@us.navy.mil. Request the current case liaison, appointment location and a warm handoff. Confirm whether an Ikego appointment or remote meeting is available if you live away from Main Base.

Yokosuka FFSC and EFMP contact https://www.navymwryokosuka.com/programs/a9208a44-f1c0-479c-b788-6f5dda73f5d6

Medical

Naval Hospital Yokosuka is the main local military medical resource. Use its current service directory for primary care, specialty care, referral management and patient assistance. Ask the receiving team to confirm the specific provider and treatment frequency your family needs; a hospital listing does not guarantee every subspecialty or therapy is available.

Naval Hospital Yokosuka https://yokosuka.tricare.mil/

Schools

School Liaison Office: Building 1559, Room 201B, Leahy Street; DSN 315-243-5542; +81-46-816-5542; MWR_Yokosuka_School_Liaison@us.navy.mil. Ask about DoDEA registration, Main Base and Ikego school routes, special education record transfer and transport accommodations.

Yokosuka School Liaison Office navymwryokosuka.com/child-youth/school-liaison-officer-slo/on-base-dodea-schools

MWR and welcome information

Yokosuka MWR provides activity listings for recreation, fitness, libraries and child and youth programs. Discuss individual participation needs with the activity before registration. The official Welcome Aboard page links arrival information, orientation and community resources; use it with your gaining sponsor's current instructions.

Yokosuka MWR https://www.navymwryokosuka.com/

Official Yokosuka Welcome Aboard https://cnrj.cnic.navy.mil/installations/cfa-yokosuka/welcome-aboard/

Before signing a lease or accepting quarters, check the school commute, therapy route, access to elevators or steps and emergency transport. Ask housing and your EFMP caseworker how to document an accessibility need.

Commander Fleet Activities Sasebo

EFMP and family support

Fleet and Family Support Center, Building 310: DSN 315-252-3372; commercial +81-956-50-3372; FFSCSasebo@us.navy.mil. Request the EFMP case liaison for local resource navigation, relocation assistance and a warm handoff. Marine Corps families should maintain enrollment and case management coordination with their USMC EFMP caseworker.

Sasebo Fleet and Family Support Center https://www.navymwrsasebo.com/programs/e8dee6cd-9021-4df7-8760-d4725cc99dea

Medical and early intervention

Branch Health Clinic Sasebo is part of US Naval Hospital Yokosuka. Confirm primary care access, prescriptions, medical screening and specialty referrals before travel. The clinic reports no full time specialists at Sasebo and some visiting specialty services. Ask how civilian referrals, interpretation, travel and International SOS authorization are arranged. For children under three, request the current early intervention referral pathway.

Branch Health Clinic Sasebo https://yokosuka.tricare.mil/Clinics/Branch-Health-Clinic-Sasebo

Schools and child and youth programs

The Sasebo School Liaison through Child and Youth Education Services assists with school transitions, local education information and youth sponsorship. Confirm the appropriate DoDEA school, grade configuration, Main Base or Hario housing bus route, registration and special education coordination. Transfer current IEP or 504 records securely. Ask CYP about childcare availability and inclusion assessment. Do not assume NDSP applies where a government operated school is available.

Sasebo School Liaison and Child and Youth Education Services
https://www.navymwrsasebo.com/programs/203ce2cb-90da-4601-b7a5-84db60d6ec72

MWR and welcome aboard

Sasebo MWR lists libraries, fitness, aquatics, outdoor recreation, tours and child and youth activities. Ask each activity about eligibility, accessibility and accommodations. Use the official installation welcome resources and gaining sponsor for arrival, lodging, housing and orientation. Compare school and recurring appointment travel from Main Base and Hario before choosing housing.

Sasebo MWR programs and directory https://www.navymwrsasebo.com/

Official Sasebo installation and welcome resources https://cnrj.cnic.navy.mil/Installations/CFA-Sasebo/

Combined Arms Training Center Camp Fuji

EFMP and family support

Coordinate with your Camp S D Butler USMC EFMP caseworker and gaining command sponsor for remote case management and a local resource handoff. MCCS Marine and Family Programs can assist with relocation information and referrals. Confirm dependent travel authorization, housing eligibility and local support for your particular billet before arranging a family move; Camp Fuji arrival guidance includes unaccompanied assignment information.

Camp Fuji Marine and Family Support https://campfuji.usmc-mccs.org/marine-family-support

Medical and early intervention

Camp Fuji Health Detachment is part of US Naval Hospital Yokosuka. Confirm beneficiary eligibility, clinic scope, prescriptions, specialty referrals and early intervention arrangements directly. The clinic page identifies referral support through Yokosuka; ask about travel time, current transport arrangements and continuity of care. Use International SOS for covered civilian care and authorization as applicable.

Camp Fuji Health Detachment https://yokosuka.tricare.mil/Clinics/Camp-Fuji-Health-Detachment

Schools and education planning

Ask the command sponsor and MCCS to identify the school liaison or education support office responsible for your household. A local DoDEA school and dedicated on site special education services were not independently confirmed for this section. Confirm school options, language of instruction, admissions, IEP related support and transport. Ask NDSP to determine eligibility and approve any proposed funded placement before paying tuition or deposits.

NDSP contacts https://www.dodea.edu/non-dod-schools/contact-us

MWR and welcome aboard

Camp Fuji MCCS lists recreation, fitness, community services and lodging information. Discuss eligibility and accommodations with the activity. Request a sponsor through fuji.cdo.fct@usmc.mil and use the official Getting Started page for current arrival instructions. Ask about local housing, transport to recurring appointments and newcomer orientation.

Camp Fuji MCCS https://campfuji.usmc-mccs.org/

Official Camp Fuji arrival guidance https://www.fuji.marines.mil/Welcome-Aboard/Getting-Started/

Republic of Korea — Camp Humphreys

For Marine Corps EFMP families assigned to or supported by this sister-service installation. Confirm services, eligibility and provider capacity directly before travel.

EFMP and family support

Army Community Service EFMP, Building 6400, Room B101, Marne Avenue: commercial +82-50-3357-2581; DSN 315-757-2581. Ask for a local family-support handoff, IEP advocacy, relocation support and eligibility for respite and workshops. Marine families should continue to coordinate their enrollment and case management with their USMC EFMP caseworker.

Official resource: https://home.army.mil/humphreys/contact/phone-directory

Medical and EFMP screening

Brian D. Allgood Army Community Hospital is the main military hospital. Korea EFMP medical office: fourth floor, Room H4154; DSN 315-737-1283; commercial 050-3337-1283; usarmy.humphreys.medcom-kor.mbx.efmp@health.mil. Confirm specialty care, therapies, referrals, command sponsorship and continuity before relocation.

Official resource: https://briandallgood.tricare.mil/Health-Services/Primary-Care/Exceptional-Family-Member-Program-EFMP

Schools and special education

School Support Services / School Liaison, Building 6400, Marne Avenue: DSN 315-757-2241; commercial +82-50-3357-2241. Ask about DoDEA school assignments, IEP/504 transfers, transportation, early intervention and eligibility. Do not assume NDSP applies where a DoDEA school is available.

Official resource: https://humphreys.armymwr.com/programs/school-support-services

MWR and welcome aboard

Camp Humphreys Army MWR offers youth programs, recreation, fitness, libraries and community activities. Ask each program about accommodations and access. Coordinate housing, newcomer orientation and command sponsorship with the gaining unit.

Official resource: https://humphreys.armymwr.com/

Republic of Korea — Osan Air Base

For Marine Corps EFMP families assigned to or supported by this sister-service installation. Confirm services, eligibility and provider capacity directly before travel.

EFMP and family support

Military and Family Readiness Center, Building 916: DSN 315-784-5440; commercial 0505-784-5440; osan.afrc@us.af.mil. Request EFMP Family Support, newcomer resources and a warm handoff from the USMC caseworker.

Official resource: https://51fss.com/military-family-readiness-center/

Medical and family travel screening

51st Medical Group EFMP office, Building 777: DSN 315-784-2273; local 0505-784-2273. Confirm specialty access, dependent travel clearance, referrals, pharmacy needs and host-nation treatment coordination. The medical EFMP office and family support are distinct functions.

Official resource: https://osan.tricare.mil/Patient-Resources/Exceptional-Family-Member-Program-EFMP

Schools and child and youth services

School Liaison Office, Building 788: DSN 315-784-0290; 51FW.CYES.OsanSchoolLiaison@us.af.mil. Verify current school options, DoDEA eligibility, transportation, IEP/504 implementation and childcare inclusion; do not presume a specific school placement.

Official resource: https://51fss.com/school-liaison-office/

MWR and welcome aboard

Osan 51st Force Support Squadron provides community recreation, youth programs, fitness and lodging information. Ask about accessibility, sensory accommodations and program eligibility. Use the gaining sponsor for arrival and housing details.

Official resource: https://51fss.com/

Republic of Korea Camp Mujuk

EFMP and family support

Start with your gaining command and Camp S D Butler USMC EFMP caseworker for remote support, family needs planning and referrals. A dedicated on site EFMP family support office was not independently confirmed. For inbound PCS Marines, the official Camp Mujuk directory lists S 1 at DSN 315-763-6854 or 315-763-6855. Ask the command to confirm dependent travel authorization, housing and the support arrangements for your specific assignment.

Camp Mujuk official points of contact https://www.mcipac.marines.mil/Installations/Camp-Mujuk/Points-of-Contact/

Medical and continuity of care

Ask the command medical representative and International SOS to identify the appropriate clinic, civilian providers and emergency transport arrangements for the Pohang area. Dependent access, specialty care, therapies and early intervention capacity must be confirmed individually. Camp Humphreys and Osan resources elsewhere in this guide are referral starting points; their distance and eligibility rules mean they should not be treated as local care at Camp Mujuk.

International SOS TRICARE Overseas contact information https://www.tricare-overseas.com/contact-us

Schools and education planning

A local DoDEA school and dedicated Camp Mujuk school liaison were not independently confirmed for this section. Request the responsible education liaison through the command and obtain a city specific review of schools, learning support, language, transport and provider availability. Contact NDSP for an eligibility determination and written approval before committing to a private or international school. Do not presume a Humphreys or Osan school assignment serves the Pohang area.

NDSP contacts https://www.dodea.edu/non-dod-schools/contact-us

MWR and welcome aboard

MCCS Mujuk publishes recreation and fitness activities, local exploration information and a facility map. Ask staff about activity access and accommodations. Obtain the current welcome packet, sponsor contact, lodging instructions and local transport information from the gaining command. Families remaining at another location should agree on remote EFMP follow up and continuity of care with their assigned caseworker.

Camp Mujuk MCCS https://mujuk.usmc-mccs.org/

Camp Mujuk recreation and fitness https://mujuk.usmc-mccs.org/recreation-fitness

Guam

Camp Blaz, Andersen Air Force Base and Naval Base Guam share island resources, but each command has its own arrival and access procedures. Use the Camp Blaz sponsor for Marine Corps requirements and the regional offices below for local support. Naval Base Guam and Joint Region Marianas are the current public starting points for the Marianas naval community requested in this guide.

Camp Blaz and arrival support

Camp Blaz New Joins https://www.mcbblaz.marines.mil/New-Joins/FAQ/

EFMP and family support

Andersen M and FRC: Building 22026; +1-671-366-8136; 36fss.fsh@us.af.mil. Ask for EFMP Family Support. Naval Base Guam FFSC: +1-671-333-2056; ask for the EFMP case liaison. Your USMC caseworker should coordinate the handoff and clarify which office supports your household.

Andersen M and FRC https://www.andersen.af.mil/aafrc/

Naval Base Guam FFSC https://www.militarymwrguam.com/programs/08e18166-b363-4a94-9c11-aa659faf8ec2

Medical and early intervention

Use Naval Hospital Guam and the 36th Medical Group at Andersen to confirm enrollment and care access. Naval Hospital overseas screening: +1-671-344-9564; dha.guam.guam-nh.list.overseas-screening@health.mil. Guam EDIS: +1-671-344-9027; ask about eligibility and referral for children under three.

Naval Hospital Guam https://guam.tricare.mil/

Andersen medical services https://andersen.tricare.mil/Health-Services

Schools recreation and welcome information

JRM school liaison: +1-671-349-6632; NBG +1-671-480-7588; Andersen +1-671-366-1604; GuSchoolLiaison@us.navy.mil. Ask about DoDEA and Guam public or private options, eligibility, boundaries, IEP services and transport. MWR has separate Andersen and Naval Base activity listings. Guam CEDDERS is a local university disability resource for information and community connections, not a substitute for military eligibility determinations.

JRM School Liaison https://www.militarymwrguam.com/school-liaison

Guam MWR and community directory https://www.militarymwrguam.com/welcome-aboard/directory

University of Guam CEDDERS https://guamcedders.org/

Naval Support Activity Singapore

The Singapore support community is listed publicly as NSA Singapore. Begin with the Fleet and Family Support Office and School Liaison for a coordinated arrival plan. The 2026 Welcome Aboard packet is available through the FFSO page and covers schooling, housing, local transport and community services.

Family support and welcome information

FFSO: Deptford Road, Building 7-4, second floor; +65-6750-2945; jill.r.landon.naf@us.navy.mil. The office lists a Sponsorship On Demand call on the first Thursday of each month, 0800–0900 Singapore time; obtain the current invitation at +65-6750-2530. Ask which EFMP liaison will support your family locally.

FFSO and current welcome packet downloads
https://www.msc.usff.navy.mil/Portals/43/MSCFE/Docs/Sembawang%20%20Welcome%20Aboard%20Booklet%20Package%202025%20(1).pdf

Official Singapore Welcome Aboard page https://installations.militaryonesource.mil/military-installation/naval-support-activity-singapore/base-essentials/sponsorship

Medical

The 2026 packet states that the Sembawang Medical Aid Station is for active duty members; family medical care must be planned through civilian providers and International SOS. The packet lists +65-6257-4233 for questions about treatment availability during screening. Confirm current clinic scope directly. International SOS Pacific customer service is +65-6339-2676; medical assistance is +65-6338-9277.

https://www.military.com/base-guide/navy-region-singapore/contact/medical-aid-station/16012

Schools and NDSP

There is no DoDEA school in Singapore. Eligible command sponsored families should arrange NDSP approval and discuss learning support before accepting a school place. The 2026 packet lists School Liaison Heather Chapa at Heather.Chapa@cnrjffr.org; confirm the incumbent through the SLO or FFSO page. Ask about admission review, therapy access, school fees and transportation.

Singapore School Liaison https://www.navymwrsingapore.com/child-youth/school-liaison-officer-slo

MWR and community participation

Navy MWR lists community recreation, fitness, aquatics, youth activities and sponsorship. Confirm access and accommodation arrangements directly. If care, therapy or school support depends on a particular provider, establish availability before travel rather than relying on the existence of a large civilian medical system.

Singapore Navy MWR https://www.navymwrsingapore.com/

Embassy and remote assignment support

For Marines assigned to an embassy, security cooperation office, exchange billet or other isolated location, begin with your command sponsor or administrative support office. Ask who supports dependents, whether the assignment is accompanied and which community services are available to your household. The existence of a diplomatic mission does not establish family travel authorization.

What to request from the gaining mission

Ask for the Community Liaison Office or equivalent community support contact, a current post welcome or community guide, school and local medical lists, emergency communication instructions and the command's NDSP liaison. Ask whether a health unit can serve your family and on what basis. A public consular medical list is information, not TRICARE network certification or a treatment guarantee.

Department of State education resources

The Office of Overseas Schools maintains school information and special needs resources. Ask OverseasSchools@state.gov for current school support information. GCLO education resources explain questions families should raise about schooling and special needs abroad. Some post information and school summary systems require authorized access; request the relevant material through your sponsor rather than assuming the public website contains the full welcome package.

Office of Overseas Schools https://www.state.gov/bureaus-offices/under-secretary-for-management/bureau-of-administration/office-of-overseas-schools

Special needs and the Foreign Service child https://state.gov/global-community-liaison-office/education-and-youth/special-needs-and-the-foreign-service-child

Office of Overseas Schools resource collection https://www.state.gov/resources-office-of-overseas-schools

Benefits must be confirmed separately

Foreign Service education allowances, State medical programs and Special Needs Education Allowance material do not automatically apply to Marine Corps families. Ask the command and NDSP which authority funds education; ask International SOS and the medical team which TRICARE plan and referral process applies. Treat eligibility as unresolved until the responsible office confirms it.

MWR where there is no large installation

Ask the mission community liaison about authorized employee association activities, recreation, family events and local accessible facilities. A published military MWR program may not exist at the post. Keep remote connections with your USMC EFMP caseworker and ask for virtual training, peer connections and phone participation options.

Military OneSource worldwide contact options

Thailand and Taiwan

Thailand

Start with the gaining command sponsor and US Embassy Bangkok; personnel assigned through JUSMAGTHAI should use that command's support channel. Request the current welcome information, community liaison contact, school guidance and medical referral arrangements. No dedicated local sister service EFMP office was independently confirmed for this guide.

US Embassy and Consulate Thailand https://th.usembassy.gov/

Official military resource locator for Thailand https://myarmybenefits.us.army.mil/Benefit-Library/Resource-Locator/Thailand

Medical: arrange care with International SOS Pacific. Consult current State country information for local conditions; do not assume an embassy health unit or a civilian hospital accepts dependents, guarantees payment or provides a required specialty. School: International School Bangkok has an archived State special needs profile; use it to prepare questions, then obtain current school review and NDSP approval. MWR: ask the mission or command about authorized community activities and accessible local options.

International School Bangkok special needs profile 2024 archived https://2021-2025.state.gov/international-school-bangkok-special-needs-profile/

Current Thailand country and travel information https://travel.state.gov/en/international-travel/travel-advisories/thailand.html

Taiwan

The American Institute in Taiwan is the appropriate US mission resource. Use the gaining command and AIT to identify family support, local medical information, welcome material and the education liaison. A conventional US installation MWR, SLO or local EFMP office should not be assumed; these were not independently confirmed for this guide.

American Institute in Taiwan https://www.ait.org.tw/kaohsiung/

Medical: use International SOS for covered provider options and authorization. School: Taipei American School and Kaohsiung American School appear in State's school resources. An archived Taipei American

School profile is linked below; ask the school for current learning support review, therapy arrangements and written acceptance. NDSP approval and medical suitability must be addressed separately. Community life: request AIT or command information about eligible family events and local recreation.

Taipei American School special needs profile https://www.state.gov/taipei-american-school-special-needs-profile

State East Asia and Pacific school directory https://www.state.gov/east-asia-and-pacific-schools-at-post

For either location: school websites and profiles are starting points, not endorsements or guarantees of placement. Contact NDSP.Management@dodea.edu if your command has not identified an education liaison.

Australia and Papua New Guinea

Australia

Support arrangements vary between Canberra, Darwin and other assignment locations. Use the gaining command sponsor; embassy assigned personnel can request support through the US Embassy Canberra. The Office of Defense Cooperation is located there, but it is not a general public EFMP service office. Ask which sponsor or support office is responsible for your billet and household.

US Embassy and Consulates in Australia https://au.usembassy.gov/

Office of Defense Cooperation Australia https://au.usembassy.gov/office-of-defense-cooperation/

Medical: use embassy medical information for orientation and International SOS to establish covered care and authorization. Schools: ask NDSP and your local command liaison about eligibility, local public or independent school arrangements and special education support. The embassy's community and schools page is useful background. Host nation disability benefits and ADF family services require their own eligibility review; USMC status does not establish access.

US Embassy Australia medical assistance https://au.usembassy.gov/medical-assistance/

American community organizations and schools in Australia https://au.usembassy.gov/american-community-organizations-and-schools-in-australia/

Recreation and arrival: ask the command for its current welcome package, authorized host base facilities and local family activities. Do not use a Canberra support arrangement as proof that the same services exist in Darwin or a remote exchange billet.

Papua New Guinea

Start with your command sponsor and US Embassy Port Moresby. Request a current post guide, community liaison contact, school options and the family emergency and medical evacuation plan. A dedicated US installation MWR, SLO or local EFMP office was not independently confirmed.

US Embassy Papua New Guinea https://pg.usembassy.gov/

Medical: current State information describes limited care outside Port Moresby and potential evacuation needs. Ask International SOS to assess your specific care requirements and clarify authorization, transport and payment responsibilities before travel. Schools: Port Moresby International School publishes grades 7–12; families with younger children must identify an appropriate separate option. Neither enrollment nor special education capacity is established by this listing. Request school review and NDSP approval. Recreation: use command or mission advice on accessible and appropriate local activities.

Port Moresby International School https://www.pmis.iea.ac.pg/

NDSP and special education planning

NDSP supports eligible dependents in overseas areas where a government operated school is not available under program rules. It is not an automatic tuition benefit attached to EFMP enrollment. The program office must determine eligibility and authorize support for the individual assignment and student.

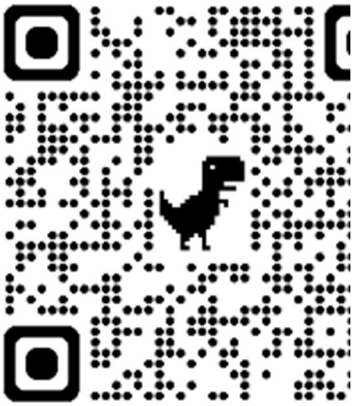

Start here

NDSP.Management@dodea.edu is the current published central contact. The contact page lists DSN 312-572-0580 or 312-572-6020. Use the website or email to confirm the correct regional education specialist and liaison for your location. Older Pacific phone numbers and mailboxes circulate in past handouts; they are not used as verified primary contacts here.

NDSP program home https://www.dodea.edu/non-dow-schools

NDSP current contacts https://www.dodea.edu/non-dod-schools/contact-us

NDSP newcomer process https://www.dodea.edu/non-dod-schools/newcomer

Before paying a deposit or signing a contract

Provide the office with orders, dependent information, location and proposed school. Ask which fees are authorized, how registration works and what requires advance approval. Obtain written clarification for tuition, transport, learning support, aides, therapies or other proposed costs. Ask who pays if a school charges a nonrefundable deposit or the child's needs exceed its program.

If your child has an IEP or other support plan

Ask for NDSP education specialist review before travel or school commitment. Provide current assessments and a clear description of service intensity, communication, behavior, mobility and assistive technology needs. Request written confirmation of the receiving school's capacity, provider availability, start dates and responsibilities. A school's willingness to enroll a child does not establish that all necessary services or funding are in place.

NDSP academic and special education support https://www.dodea.edu/non-dod-schools/academic-support

DoDEA schools and early intervention

At locations with government schools, work with the school registrar and SLO to establish eligibility, placement and special education coordination. For children under three, ask the medical team about the appropriate early intervention pathway; do not presume overseas EDIS or local civilian programs cover every assignment. For Singapore and embassy locations, plan how early childhood needs will be addressed even when the school funding program does not cover the service requested.

Use the family's current records, not a diagnosis alone, to discuss placement. Keep the USMC EFMP caseworker informed of changes in school needs or provider availability so the support plan can be updated.

TRICARE Overseas and International SOS

International SOS is the TRICARE Overseas Program contractor. It helps beneficiaries navigate overseas care, provider access and plan requirements. Contact it before scheduling planned civilian care if you are uncertain about referrals or authorization. Eligibility, covered benefits and payment depend on the person's plan and circumstances.

Pacific contact information

Customer service: +65-6339-2676. Medical assistance: +65-6338-9277. Use the country selector for the correct local or toll free route and any country specific arrangements, including Australia. In an emergency, contact local emergency services first, then notify your care team or International SOS as required. The assistance line is not a substitute for dispatch.

TRICARE official overseas contact information https://www.tricare-overseas.com/contact-us

International SOS https://www.internationalsos.com/assistance-centres

Plan enrollment and referrals

Ask whether TRICARE Prime Overseas, Prime Remote Overseas or Select Overseas applies to your assignment and family. Update DEERS and enrollment as required. Confirm the civilian provider, referral or prior authorization, billing arrangements and whether an upfront payment is expected. A consular list, an English speaking clinician or a provider's willingness to see you does not establish TRICARE coverage.

TOP enrollment and eligibility https://www.tricare-overseas.com/beneficiaries/enrollment-and-eligibility

TOP referrals and authorizations

Special needs benefits

Ask International SOS about ECHO eligibility and registration if you have an eligible active duty family member with qualifying needs. EFMP and ECHO are separate processes. Ask how equipment, home care or respite requests are reviewed. For autism related ABA, obtain current country and provider availability information; overseas access is limited and should not be inferred from US coverage.

TRICARE Extended Care Health Option https://www.tricare-overseas.com/beneficiaries/plans-and-programs/special-programs/extended-care-health-option

TOP applied behavior analysis information https://www.tricare-overseas.com/beneficiaries/plans-and-programs/special-programs/applied-behavior-analysis

What to have ready when you call

Have your location, plan information, requested service, existing referral and provider details available. Ask for the case reference and written authorization instructions. Use the approved secure channel for medical records. For long term care, request help coordinating the transition and document a backup plan if the preferred provider is unavailable.

Arrival checklist and continuing remote support

Before departure

- Confirm dependent travel authorization, medical suitability and a gaining command sponsor.
- Arrange an EFMP warm handoff and identify a local family support office or mission contact.
- Confirm primary and specialty care, prescriptions, equipment, referral arrangements and emergency transport.
- Obtain school acceptance and required education funding approvals; transfer current IEP and evaluation records securely.
- Check accessible housing, appointment travel, school transport and childcare inclusion arrangements.

After arrival

- Complete command and installation orientation and confirm local emergency numbers.
- Update contact details and required enrollment information with the responsible offices.
- Establish care and school services; report any service gaps promptly to the medical team, school and USMC EFMP caseworker.
- Ask MWR or community activity staff about accessibility, advance accommodation requests and opportunities for family connections.

Stay connected with your USMC EFMP caseworker

Ask for video or phone check ins, virtual family training, accessible handouts and dial in options when streaming is difficult. Agree on the next follow up date and a way to report service interruptions. These practices reflect the remote support ideas in the supplied EFMP 3.8 image; this guide does not establish that a local office offers every option.

How this guide was reviewed

The supplied AOR RESOURCE GUIDE.docx and EFMP 3.8 image were reviewed. Official installation, education, medical and diplomatic pages were researched on 27 October 2026. Links are placed beside the relevant resources. Some official sites restricted direct retrieval; available official indexed text was used. Archived State school profiles are explicitly dated. Current individual service capacity, unpublished post guides and local benefit eligibility require direct confirmation.

Companion reference: Sister Service EFMP Office Directory contains office phone, email, building information where available, and a separate list of draft contacts awaiting confirmation. Recommended publication practice is to recheck both documents quarterly and whenever an office reports a change.
