Taiyo Golf Club's - Point Custom Club Fitting

A custom club fitting at Taiyo G.C. is an experience like no other. In addition to the basics that most shops offer, our professionals take the time to learn your practice and playing habits, provide a full diagnostic of your current equipment and review your performance using our launch monitor that tracks club and ball speed, launch angle and ball spin rates to ensure a proper fit.

For details on how Taiyo's unrivaled custom club fitting program can improve your game, call us today at 622-2013.
