

STARTING OR GROWING A VETERAN-OWNED BUSINESS

Veterans have the character, discipline and skills needed to succeed as small business owners and entrepreneurs. Wondering what it takes and how you can prepare?

ENROLL IN BOOTS TO BUSINESS

AN ENTREPRENEURSHIP TRAINING PROGRAM
FOR VETERANS AND THEIR SPOUSES

ABOUT BOOTS TO BUSINESS

THE ENTREPRENEURSHIP TRACK OF THE TRANSITION ASSISTANCE PROGRAM

Boots to Business is an entrepreneurial education and training program offered by the U.S. Small Business Administration (SBA) as a training track within the Department of Defense's Transition Assistance Program (TAP). The curriculum provides valuable assistance to transitioning service members exploring business ownership or other self-employment opportunities by leading them through the key steps for evaluating business concepts and providing the foundational knowledge required to develop a business plan. In addition, participants are introduced to SBA resources available to help access start-up capital and additional technical assistance.

A TWO STEP PROGRAM

1) INTRODUCTION TO ENTREPRENEURSHIP TWO-DAY COURSE

A two-day course offered as a TAP training track course for those interested in learning more about the opportunities and challenges of business ownership. Subject matter experts and practitioners from SBA and its network of partners teach the course at over 165 military installations worldwide. Participants learn business fundamentals and techniques for evaluating the feasibility of their business concepts.

2) FOLLOW ON COURSES OFFERED BY THE IVMF

The next step is an interconnected system of learning that allows flexibility and encompasses many paths to education. It gives the participants the tools to determine the right path for themselves through assessment and comfort level.

- **MARKET RESEARCH:** designed for individuals who are ready to launch their business immediately

Primary Market Research: this course teaches students how to operationalize the tools for the creation of the value proposition and market validation.

Defining and Redefining Product Market Fit: further discussion of how to apply the tools for the value proposition and market validation.

- **BUSINESS FUNDAMENTALS:** those that are still exploring entrepreneurship but need more education in basic Business education and knowledge. This section is composed of thirteen, 2-3 hours modular classes in asynchronous one-week online course.
- **OPTIONAL TRACKS:** offers virtual connection with specialists in Franchising, Manufacturing, Retail, and Government Contracting.
